CEO'S overview

In the second quarter of 2017, net sales rose by 8 percent, of which 3 percent was organic growth. Organic growth was thus lower than in the first quarter, which was entirely attributable to calendar effects. However, we noted continued healthy underlying demand and a higher market share.

In the segment International, we increased our market share in most markets, which continues the good trend since many quarters. Growth was favourable in the UK and continental Europe, but softer in Norway, Finland and Asia. The segment's gross margin was weaker than in previous year.

We also continued to increase our market share in Sweden. Unfortunately, we noted a deterioration in the gross margin during the quarter compared to the same period last year and the first quarter. The decline was the result of rising purchasing prices in recent quarters, driven in turn by higher prices for raw materials, which now impacted our income statement. However, we saw signs that the trend towards rising purchasing prices slowed in the latter part of the quarter. We continue to focus on raising prices for customers, although to date these have not been enough to offset the cost increases.

The acquisitions we have completed in recent years continue to develop well. During the quarter, we completed the acquisition of Thunderbolts,

complementing our other operations in the UK. We continue looking for suitable acquisition targets.

Due to acquisition costs and to a better than expected development in acquired companies, the result was charged with SEK 3 million in the quarter.

Overall, the result in the second quarter was influenced by calendar effects and raw material prices. Looking at the first six months as a whole, sales increased by 11 percent and operating profit by 8 percent. We also noted a deterioration in the gross margin during the quarter driven primarily by rising purchasing prices. Offsetting these is our main challenge in the short term. At the same time, we will continue to work on growing our market share and to seek more value-generating acquisitions. Because of the unusually strong order intake in the quarter, we remain optimistic ahead of 2017 as a whole.

The Parent Company's financial statements were prepared in accordance with the Swedish Annual Accounts Act, Chapter 9 and the Swedish Financial Reporting Board's recommendation RFR 2.

The accounting policies applied correspond to the accounting policies and measurement principles presented in the 2016 Annual Report. The 2016 Annual Report is available at www.bufab.com.

As indicated under the heading "Acquisitions," an adjustment has been made to the preliminary acquisition analysis relating to Montrose Holdings Ltd, thereby increasing the recognized goodwill and estimated additional purchase consideration by SEK 7 million. In accordance with IFRS 3, adjustments to the preliminary acquisition analysis have been recognized as of the acquisition date, and comparative figures for the 2016 financial year have therefore been restated. However, such restatements did not have any effect on recognized profit, earnings per share or consolidated equity.

RISKS AND RISK MANAGEMENT

Exposure to risk is a natural part of business activity and this is reflected in Bufab's approach to risk management. The aim is to identify and prevent risks and to limit any loss or damage from these risks. The main risks to which the Group is exposed relate to the impact of the economy on demand. For further information, see Note 3 of the 2016 Annual Report.

SEASONAL VARIATIONS

Bufab has no significant seasonal variation in its sales, but sales over the year vary based on the number of production days in each quarter for customers.

RELATED-PARTY TRANSACTIONS

During the interim period, the President and senior executives subscribed for call options within the framework of the long-term share-based incentive programme adopted at the Annual General Meeting under the terms outlined in more detail below. In other respects, no other related-party transactions occurred during the period.

LONG-TERM SHARE-BASED INCENTIVE PROGRAMME

The 2017 Annual General Meeting resolved to adopt a long-term share-based incentive programme based on call options, comprising the CEO, senior executives and other key employees within the Group. The programme comprises a

maximum of 350,000 call options, corresponding to approximately 0.9 percent of the total number of shares in the company. The purchase price for the call options has been set at SEK 10.01, corresponding to the market value of the options at the date of transfer. Each call option entitles the holder to acquire one share in Bufab during the period 15 May 2020 - 15 November 2020. The purchase price per share is SEK 120.40, corresponding to 115 percent of the volume-weighted average price paid for the company's share on Nasdaq Stockholm during the period 8 May 2017 - 12 May 2017. During the interim period, a total of 333,950 call options were subscribed for.

To encourage participation in the programme, the Board of Directors has resolved on a subsidy in the form of gross salary additions to participants, which may correspond to not more than the price paid for the call options. To hedge Bufab's delivery of shares, the Annual General Meeting also resolved to authorise the Board of Directors to repurchase a maximum of 350,000 shares in the company, and approved the transfer of a maximum of 350,000 of the company's repurchased shares to the participants of the programme. No shares were repurchased during the interim period.

ACQUISITIONS

The following acquisitions were made during 2015-2017.

	Date	Net sales*	Employees
Flos BV	26 Feb 2015	160	52
Apex Stainless Holdings Ltd	26 Nov 2015	300	110
Magnetfabriken AB	2 Mar 2016	20	6
Montrose Holdings Ltd	5 Dec 2016	80	51
Thunderbolts Group Limited	24 May 2017	32	19

*Estimated annual net sales at the date of acquisition

Liabilities for conditional, not yet paid purchase considerations have been remeasured as a result of the positive performance of acquired companies and incurred a cost in the second quarter of 2017 of SEK 2 million. In addition, transaction costs of SEK 1 million were recognized in the second quarter for the acquisition of Thunderbolts Group Limited. These costs were recognised under other operating expenses in segment Other.

During the interim period, the preliminary acquisition analysis for Montrose Holdings Ltd, presented in Note 35 of the 2016 Annual Report, was updated. The adjustment was the result of the receipt of information that confirmed the conditions prevailing on the acquisition date and entails an increase of

both the estimated additional purchase consideration and recognized goodwill of SEK 7 million.

On 24 May 2017, Bufab acquired 100 percent of the shares in Thunderbolts Group Limited. Thunderbolts was founded in 1991 and has through steady growth developed into a significant supplier to the construction, manufacturing, marine and healthcare industries in the south of England. The purchase consideration was SEK 25 million, of which SEK 15 million has been paid unconditionally and the remaining SEK 10 million is subject to conditions. The conditional portion of SEK 10 million comprises 100 percent of the maximum outcome of the additional purchase consideration and is subject to the company's future earnings performance.

The acquisition has added SEK 3 million to the Group's accumulated net sales since the transfer. The net impact on accumulated operating profit was SEK 0 million and the effect on profit after tax was SEK 0 million. Transaction costs for the acquisition amounted to SEK 1 million. The acquisition would have positively impacted the Group's net sales by an estimated SEK 15 million, operating profit by about SEK 2 million and profit after tax for the period by about SEK 1 million had it been implemented on 1 January 2017.

The amounts of the assets and liabilities included in the acquisition according to the preliminary acquisition analysis were as follows:

Thunderbolts Group Limited	<i>Carrying amount on acquisition date</i>	<i>Adjustment to fair value</i>	<i>Fair value</i>
Intangible assets		6	6
Other non-current assets	0		0

Goodwill arising in connection with the acquisition is attributable to the knowledge accrued in the acquired company and the established and

consolidated market positions and the anticipated profitability related to it.

In addition to the net impact on the Group's cash and cash equivalents of SEK 8 million relating to the acquisition of Thunderbolts, SEK 21 million was paid in additional purchase considerations for previous acquisitions

Performance measures not defined in accordance with IFRS

Bufab uses certain performance measures not defined in the rules for financial reporting adopted by Bufab. The purpose of these performance measures is to provide a better understanding of the performance of the operations. It should be pointed out that these alternative performance measures, as they are defined, are not fully comparable with other companies' performance measures with the same name.

Organic growth

Because Bufab has operations in many countries with different currencies, it is essential to provide an understanding of the company's performance without current effects when translating foreign subsidiaries. In addition, Bufab has an important strategic objective in carrying out value-generating acquisitions. For these reasons, growth is recognised also excluding currency effects when translating foreign subsidiaries and excluding acquired operations within the term Organic growth. This performance measure is expressed in percentage points of last year's net sales.
